SUBJECT: GAO Study on Position Classification

1. Attached for your information is a General Accounting Office Study on, "Description of Selected Systems for Classifying Federal Civilian Positions and Personnel," dated 13 July 1984.

2. The report describes the classification systems used for four pay schedules which apply to nearly 85 percent of federal civilian employees. The report was requested by the House Post Office and Civil Service Committee which is looking into pay equity. Specifically, the Committee is concerned that there is sex bias in federal classification systems and that female--dominated occupations may be undervalued.
